

Homework

Homework

- For this homework, you will continue from the previous session's homework.
- Make a copy of the *homework-module1* folder and name it **homework-module2**.
- Before you begin working, see the finish example **End Day 1 Homework** on today's session in GAP (Week 5 Day 1).
- Launch VS Code. Make sure **auto save** is on.
- Browse to locate the **homework-module2** folder via *Open folder*.

Homework

- On today's homework, you will practice some jQuery scripts that you'd just learned. You will start by doing initial work in making the Great Cliff activity table interactive. Below will describe how it works:
 - When user click on an activity cell, the cell is highlighted to indicate it is selected.
 - If user click on the same activity cell again, the cell returns to its normal state.
 - User can select more than one activity.
 - "Not available" cells are not selectable.
 - Heading/title cells are not selectable.
 - On cells that are selectable, the cursor display the hand.

Homework

- Here's a preview of the table when it's complete:

Activities at the Cliffs				
Activity	West Cliff	North Cliff	East Cliff	South Cliff
Hiking	College Hikes	Family Fun	Treasure Trails	Canyon Explorer
Kayak	Western Kayak Meetup	Not Available	Youth Kayaking	Kayak Down
Skydiving	Seacliff Diving	Sky is the limit	Not Available	Sky Diving for Beginners
Biking	Bicycle for One	Not Available	Bike Meetup Group	Not Available
Camping	Youth Camp	Rent a Tent	Campground Adventure	Sunset Camping

Homework

- Write your jQuery scripts on a new external JavaScript file. Name this file **activity.js**. Save it in the **js** folder.
- Don't forget to create a link to this js file at the bottom of the *activities.html* page.
- To help you start your jQuery script, make sure you do the following:
 1. Link the jQuery library to the *activities.html* page. To do this refer back to this slide [here](#).
 2. Start jQuery code with this. See an example on this slide [here](#).

```
$(document).ready(function() {  
  
})
```

Homework

- **Due Date:**
 - Due before the next session starts.
- **Submission**
 - Submit homework-module2 folder as a zip file (compressed as **homework-module2.zip**) in the dropbox in GAP Week 5 Day 1.
